Buttons

Buttons communicate the action that will occur when the user touches or click them.

Sizes and setups

There are four standard button sizes:

a button made for attention and call to action Large:

Medium: a common touch save button

a common button Small: for web applications, where space is limited (only appropiated for mobile) Tiny:

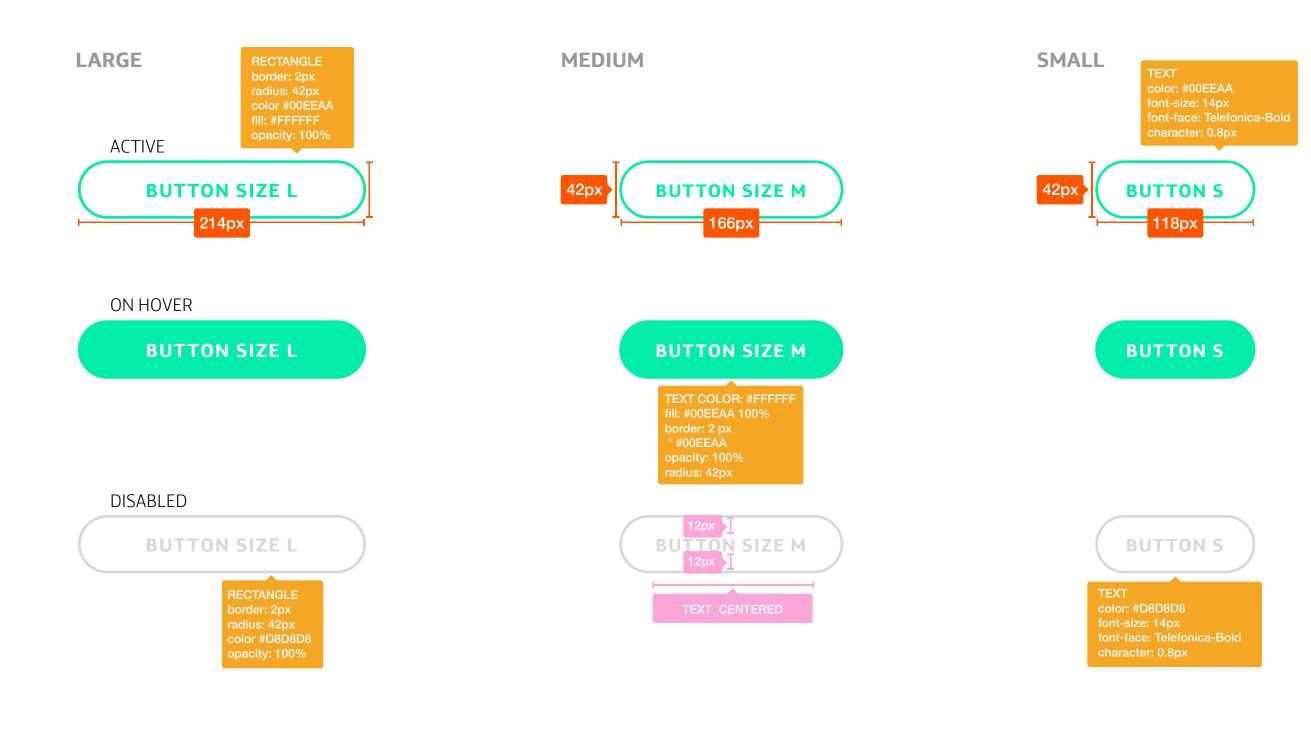

Use of icons:

Icons like chevrons or cross can be used on both the left and right hand side of the text.
