# PAGINATION

Pagination is used for splitting up content or data into several pages, with a control for navigating to the next or previous page. The default number displayed will vary depending on the context.

States

These are the different states you can find the pagination icons.

DEFAULT	ON HOVER	DISABLED
‹ **1** 2 3 › »	‹ 1 2 3 › »	‹ 1 2 3 › »

‹ **1** 2 3 ... 14 › »

‹‹	‹	**1**	2 3 4	... 14	›	»
